The examiner is in receipt of applicant's response to office action mailed 6/9/2006, which was received 12/8/2006. Acknowledgement is made to the amendment to claims 1,2,11 and 15, leaving claims 1-18 open to prosecution. The examiner has carefully considered applicant's amendment and remarks and finds them convincing, however after further searching a new grounds of rejection is provided below:

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5,7-13 and 15-17 are rejected under 35 U.S.C. 102(b) as being anticipated by realname (a collection of articles and web pages listed as realname1-8 and dated prior to May 13,2000).

In regards to claims 1-5,7-13 and 15-17, realname teaches all the features of the instant claims, For instance, realname inputting a user selected brand name and returning a URL that is mapped to the brand name (realname8).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 6,14 and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over realname in view of Official Notice.

In regards to claims 6,14 and 18, realname teaches inputting a brand name into a computer but does not specifically mention that the device is an interactive television. The examiner takes official notice that it was old and well known in the art at the time of the invention to use interactive televisions for inputting search information. It would have been obvious to a person of ordinary skill in the art at the time of the invention to include in realname the use of the input functionality in interactive televisions. Because this will increase the revenue to the company by not excluding the interactive televisions from using brand names while searching the internet.

Response to Arguments

Applicant's arguments with respect to claims 1-18 have been considered but are moot in view of the new ground(s) of rejection necessitated by amendment.
